Experiment 8: Storyboard for Online Food Ordering System using Balsamiq

Aim

To create storyboards representing the user flow of an Online Food Ordering System using Balsamiq.

Tools Used

- Balsamiq
- Computer System

Procedure

Step 1: Identify User Flow

Defined the main flow of the application:

- User login
- Browse restaurants
- Select food items
- Add to cart
- Make payment
- Track order

Step 2: Create Storyboard Screens in Balsamiq

The following screens were designed:

Screen 1: Welcome Screen

- Login and Signup options

Screen 2: Login Screen

- User authentication

Screen 3: Home Screen

- List of restaurants
- Search bar

Screen 4: Restaurant Menu Screen

- Food items with “Add to Cart”

Screen 5: Cart Screen

- Selected items
- Total price

Screen 6: Payment Screen

- Address input
- Payment options

Screen 7: Order Confirmation Screen

- Order success message

Screen 8: Order Tracking Screen

- Order status updates

Step 3: Create Admin Flow

Separate storyboard created for admin:

Admin Screens:

- Admin Login
- Admin Dashboard
- Manage orders and update status

Step 4: Connect Screens

- Arrows were used to represent navigation between screens
- Logical flow maintained from start to end

Step 5: Evaluate User Flow

Storyboard was reviewed based on:

- Clarity of navigation
- Ease of understanding
- Logical sequence of screens

Observation

- The storyboard clearly represents the complete user journey
- Navigation between screens is simple and understandable
- Separation between user and admin flow improves usability

Result

The storyboard for the Online Food Ordering System was successfully created using Balsamiq, showing a clear and structured user flow from login to order tracking.
